Health and Safety Products Catalogue

2nd Edition

1.866.546.3267

Across Industries. Across Canada.

Dear valued customer,

For over 150 years, Wajax has been at the forefront of Canada's industrial market as a leading provider of heavy equipment, power systems, industrial components and services.

At Wajax, we understand the importance that must be attributed to the safety of your workers. Three years ago, we launched the first edition of our safety products catalogue and today we are proud to introduce our second edition.

Wajax safety products are sourced from the world's most reputable brand names including 3M, Honeywell, Showa-Best, Dynamic Safety and Superior Glove. These renowned manufacturers represent just a few of the hundreds of partners with whom we have teamed up to offer you the superior quality products you need and that your workers deserve. In this edition, we have expanded our selection of products by adding 20 new suppliers to the catalogue.

Our Wajax certified specialists have extensive experience in the field of health and safety, so whether you need an analysis of your work environment, safety advice or training for your workers, Wajax is at your service.

We would like to thank you in advance for the trust you have in Wajax. Together, let's protect your Canadian workers and ensure them a safe future.

Best regards,

Your Wajax Safety Specialists

SE2

SBC2KI

E2RW00A389

P2A

- Proprietary injection-molded fiberglass compound offers exceptional impact and crack resistance and is eight times stronger than common high density polyethylene (HDPE) cap shells
- Best-in-class heat resistance. Meets standard impact resistance tests at extreme temperatures of up to 370°F / 188°C
- Solid color resin provides a permanent, no-chip, no-peel finish. The matte finish makes logo imprints crisper and cleaner, so your official company caps look better and last longer
- The technically-advanced SuperEight suspension balances and spreads weight over a wide area for added comfort and impact protection
- Available with the famous Fibre-Metal non-slip/non-strip ratchet, SwingStrap or TabLok headgear
- Meets ANSI Z89.1-2009 Type I Class G (including Quick-Lok® model) and CSA Z94.1-2005 Type I Class G or C (Class C for Quick-Lok® model) in both forward and reverse

Series #	Suspension

Dynamic CSA/ANSI Safety Hard hat with personal printing !

Let's identify your company on your safety hard hat, and even print safety slogans on it.

All Dynamic hard hats feature large printing surfaces for company logos on front, sides and back. They can print up to 5 colors per location.

Some graphics can cover the complete hard hat showing the type of industry your company is in.

Also, they are offering reflective striping installation services for more visibility when workers are in dark working areas.

Contact your nearest branch for more information.

3M™ SecureFit™, Protective Eyewear

Stylish, lightweight design weighs less than 1oz. Features proprietary 3M™ Pressure Diffusion Temple Technology that helps diffuse pressure over the ear to enhance frame comfort while not compromising the security of fit across a diverse workforce.

- 3M Pressure Diffusion Technology allows temples to naturally adjust to individual head sizes.
- Self-adjusting feature eliminates need to stock multiple frame sizes at worksites.
- Secure, snug fit keeps eyewear in place without slippage even when the person is in motion.
- Anti-fog coating helps keep lenses free of moisture in hot and humid conditions.
- Polycarbonate lenses absorb 99.9% UVA and UVB up to 380 nm and meet the requirements of CSA Z94.3 and ANSI Z87.1-2010.

3M™ Peltor™ X Series Earmuffs

The 3M Peltor X Series earmuffs are available in headband and hard hat-attached versions. With Noise Reduction Rating (NRR) values ranging from 21 to 31 dB, the X Series makes it easier than ever to match the attenuation of the earmuff with the noise exposure of the worker. When correctly selected and worn these products help reduce exposure to hazardous levels of noise and loud sounds. The hard hat-attached models fit a wide range of industrial safety helmets including 3M H-700 Series hard hats.

- Modern, attractive low-profile design
- Lightweight
- Twin headband design for outstanding balance and comfort
- Electrically-insulated wire headband*
- Soft wide cushions help maintain a comfortable pressure around the ears
- New innovative foam earcup inserts and spacers that help improve attenuation
- New ear cushion foam technology for an effective acoustic seal and reliable protection
- Easy-to-replace cushions and inserts help keep them clean
- Hard hat-attached version fits directly to many hard hats without an adapter

*NOTE: The headband models are electrically insulated – sometimes referred to as 'dielectric'.

Highest Independently tested NRR 33, Tapered for easier insertion, Improved, softer foam for maximum comfort, Hygienically packaged in biodegradable paper pouches, Non-irritating, smooth surface, Longer length for easy fitting and removal, Look for the bright green color as a symbol of Moldex quality, 100% PVC-Free®.

Glide® Foam Twist In Earplug Uncorded, NRR 30

Unique multi-curved stem rotates for a custom fit, Large handle on curved stem for easy insertion & removal, Large soft foam pod for a comfortable, snug seal, Glide Foam has the highest independently rated NRR for a no-roll earplug, Look for the bright green color as a symbol of Moldex quality, 100% PVC-Free®, like all Moldex products & packaging - for a greener alternative, Made in U.S.A.

Glide® Foam Twist In Earplug with Cord, NRR 30

Unique multi-curved stem rotates for a custom fit, Large handle on curved stem for easy insertion & removal, Large soft foam pod for a comfortable, snug seal, Cord can be attached at any desired length, Glide Foam has the highest independently rated NRR for a no-roll earplug, Look for the bright green color as a symbol of Moldex quality, 100% PVC-Free®, like all Moldex products & packaging - for a greener alternative, Made in U.S.A.

Rockets® Reusable Earplugs Uncorded, NRR 27

Independently tested NRR 27, with a new sound dampening additive, NRR 27 gives protection in most noisy environments, Easy grip handle lets earplugs easily slip into ear, Air bubble in tip provides cushioned comfort, Earplugs can be washed and reused, Pocket-Pak® carrying case provides hygienic storage of plugs between uses, except for models #6404 and #6415, Available in corded, uncorded, and corded metal detectable models, Look for the bright green color as a symbol of Moldex quality, 100% PVC-Free®.

Rockets® Reusable Earplugs Corded in Bag, NRR 27

Independently tested NRR 27, with a new sound dampening additive, NRR 27 gives protection in most noisy environments, Easy grip handle lets earplugs easily slip into ear, Air bubble in tip provides cushioned comfort, Earplugs can be washed and reused, Pocket-Pak® carrying case provides hygienic storage of plugs between uses, except for models #6404 and #6415, Available in corded, uncorded, and corded metal detectable models, Look for the bright green color as a symbol of Moldex quality, 100% PVC-Free®.

Rock Band® Banded Hearing Protector

Soft, comfortable reusable pods gently cap off the ear canal, Available in 5 exciting colors, each box comes with two of each color, Two flexible arms distribute pressure evenly for maximum comfort, Bright, fun colors appeal to the new generation of workers, NRR 22 (Under-the-Chin), 100% PVC-Free®.

MX-6 Earmuff, NRR 30

Soft cushion-ribbed open air headband for cool comfort all day long, Overmolded headband is durable for rugged wear over many shifts, Larger ear cushions allow freedom to fit almost all ears comfortably, Lightweight wire frame allows easy cup adjustment yet holds its position for lasting comfort, Cool looks and comfort to promote worker acceptance and compliance, Extra soft foam/low pressure cushions and headband are PVC-Free, Glossy surface for easy cleaning and longer wear, Independently tested NRR for protection you can count on, MX-6 features exclusive waffled cup foam for superior NRR protection.

MX-5 Earmuff, NRR 27

Soft cushion-ribbed open air headband for cool comfort all day long, Overmolded headband is durable for rugged wear over many shifts, Larger ear cushions allow freedom to fit almost all ears comfortably, Lightweight wire frame allows easy cup adjustment yet holds its position for lasting comfort, Cool looks and comfort to promote worker acceptance and compliance, Extra soft foam/low pressure cushions and headband are PVC-Free®, Glossy surface for easy cleaning and longer wear, Independently tested NRR for protection you can count on

Vendor Code : MOLMET

7000 Series Half Mask Respirator

Sleek design for modern, high-tech look and increased worker acceptance, Light weight design plus extra-wide sealing area provides all-day comfort, Low profile, compact design fits well under welding helmets and with safety glasse, Mask drops down for convenient storage around the neck or locks down for custom fit, Adjustable head cradle and curved neck buckles for extra comfort, Wide field of vision, Maintenance made simple with very few replacement parts, Available pre-assembled and also as individual components, 100% PVC-Free®

7001

9000 Series Full Face Respirator Facepiece

High-tech, streamlined design for exceptional worker acceptance, Exclusive over-molded lens offers greater field of vision, Lighter weight for superior all-day comfort, Fewer parts means less cost and easy maintenance, Stand-away head harness for easy donning and doffing, Lens stays away from flat surface when laid down to avoid scratching, Tear away lens protector included, Lens meets ANSI Z87+ for high impact requirements, 100% PVC-Free®

9000

7000/7800/9000 Series Gas/Vapour Cartridges

100% PVC-Free®, Can be used with both 7000 and 9000 series respirators.

SparkPlugs® Foam Earplugs Uncorded, NRR 33

Highest independently tested NRR, NRR 33dB, suitable for most noisy enviroments, Extra-soft, low-pressure foam for comfort and fit, Tapered shape for easy insertion and removal, Shaped to fit even very small ear canals, Non-irritating smooth surface, Look for the exclusive colored streaks and swirls as a symbol of Moldex quality, 100% PVC-Free®.

6604

SparkPlugs® Foam Earplugs Corded, NRR 33

Qty/Box(pairs): 100, Different colours in every package, Fun coloured to spark up hearing protection program, Tapered for easy insertion in any size ear canal, Non-irritating, smooth surface for added comfort.

6654

PlugStation® with SparkPlugs®, 500 PR

Give workers easy access to hearing protection, High visibility to increase awareness for your hearing conservation program, Clicking mechanism for easy use and dispensing, Eliminates the mess of individually bagged packaging because earplugs drop right into the palm of your hand, Each dispenser is sealed and disposable, Contains 500 Pairs of SparkPlugs® earplugs, NRR 33dB

6645

PlugStation® with SparkPlugs® Corded, 150 PR

The first corded earplug dispenser, Corded earplugs are NRR 33dB, Compliance — High visibility to increase awareness for your hearing conservation program, Convenience — Hang a PlugStation® anywhere plugs are needed, Cost Savings — Workers take one pair at a time so there are no wasteful grabbing of multiple pairs, 150 Pairs of corded SparkPlugs earplugs included in each dispenser, Earplugs made from extra-soft, lightweight PVC-Free foam for superior comfort, Convenient, quick access, and ease of use lead to higher compliance, 100% PVC-Free®

6880

SparkPlugs® Metal Detectable Foam Earplugs Corded, NRR 33

Highest independently tested NRR, NRR 33dB, suitable for most noisy enviroments, Extra-soft, low-pressure foam for comfort and fit, Tapered shape for easy insertion and removal, Shaped to fit even very small ear canals, Non-irritating smooth surface, Look for the exclusive colored streaks and swirls as a symbol of Moldex quality, 100% PVC-Free®

6615

PlugStation® with SparkPlugs® Metal Detectable and Corded, 150 PR

The first corded earplug dispenser, Corded earplugs are NRR 33dB, Compliance — High visibility to increase awareness for your hearing conservation program, Convenience — Hang a PlugStation® anywhere plugs are needed, Cost Savings — Workers take one pair at a time so there are no wasteful grabbing of multiple pairs, 150 Pairs of corded Metal Detectable SparkPlugs earplugs included in each dispenser, Earplugs made from extra-soft, lightweight PVC, Free foam for superior comfort, Convenient, quick access, and ease of use lead to higher compliance, 100% PVC-Free®

N95 AirWave® 2-Strap Disposable Respirator

Exclusive easy-breathing wave design, Unique waves double the filter surface area of our comparable respirator, Dura-Mesh® shell provides bi-directional protection from dirt on the outside and moisture on the inside, Less resistance, better breathability*, FlexFit® design expands and contracts as you move and speak, for optimal comfort, Ideal where unvalved respirators are preferred, Less cost than valved respirators, Longer wear means less cost, Softspun® lining for increased comfort and durability, Soft foam nose cushion and contour shaped for comfort, Pinch free nose bridge, Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1, 100% PVC-Free®.

N95 AirWave® SmartStrap® Disposable Respirator

Exclusive easy-breathing wave design, Unique waves double the filter surface area of our comparable respirator, Dura-Mesh® shell provides bi-directional protection from dirt on the outside and moisture on the inside, Soft, cloth SmartStrap® is both HANGABLE and ADJUSTABLE, FlexFit® design expands and contracts as you move and speak, for optimal comfort, Ideal where unvalved respirators are preferred, Less cost than valved respirators, Longer wear means less cost, Softspun® lining for increased comfort and durability, Soft foam nose cushion and contour shaped for comfort, Pinch free nose bridge, Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1, 100% PVC-Free®.

N95 + Nuisance OV AirWave® SmartStrap® Disposable Respirator

Exclusive easy-breathing wave design, Unique waves double the filter surface area of our comparable respirator, Relief from Nuisance levels of Organic Vapors, Dura-Mesh® shell provides bi-directional protection from dirt on the outside and moisture on the inside, Soft, cloth SmartStrap® is both HANGABLE and ADJUSTABLE, FlexFit® design expands and contracts as you move and speak, for optimal comfort, Ideal where unvalved respirators are preferred, Less cost than valved respirators, Longer wear means less cost, Softspun® lining for increased comfort and durability, Soft foam full flange for ultimate comfortable fit, Pinch free nose bridge, Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1, 100% PVC-Free®.

N100 AirWave® SmartStrap® Disposable Respirator

Exclusive easy-breathing wave design, Less resistance, better breathability, 99.97% efficient against non-oil based particulates, FlexFit design moves easily with your face and stays in place, Dura-Mesh® shell resists collapsing in heat and humidity, Soft, cloth SmartStrap® is both HANGABLE and ADJUSTABLE, Ventex® valve lets the hot air out faster so workers breathe easier and stay cooler, Foam face cushion for added comfort and no pressure points, Softspun® lining for increased comfort and durability, Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1, Metal-free.

N95 Classic 2-Strap Disposable Respirator

Available in three sizes to fit more workers and increase OSHA compliance, Dura-Mesh® shell resists collapsing in heat and humidity, Molded nose bridge seals easily without a metal noseband, Facepiece is naturally contoured without pressure points, Straps are securely attached so they don't break at the seal, Softspun® lining for increased comfort and durability, Soft foam nose cushion for added comfort, Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1, 100% PVC-Free®. 2600 version comes with HandyStrap®.

N95 OV + valve & 2 strap

Added carbon layer helps filter out nuisance levels of ozone and organic vapors (less than OSHA PEL), Can be used against most welding fumes (free of oil), Exhale valve lets workers breathe easy and stay cool, Exclusive Dura-Mesh® shell resists collapsing in heat and humidity, Molded nose bridge with soft foam nose cushion increases comfort, Facepiece is naturally contoured without pressure points, Meets heat and flame resistance in accordance with ANSI/ISEA 110-2003 Section 7.11.1, 100% PVC-Free®. 2800N95 version comes with HandyStrap®.

N95 Classic 2-Strap Disposable Respirator with Valve

Available in three sizes to fit most workers in today's workplace, Exhale valve lets workers breathe easy and stay cool, Exclusive Dura-Mesh® shell resists collapsing in heat and humidity, Molded nosebridge seals easily and comfortably without a metal noseband, Facepiece is naturally contoured without pressure points, Soft, foam nose cushion for added comfort, Softspun® lining for increased comfort and durability, Suitable for most welding applications, Meets heat and flame resistance in accordance with ANSI/ISEA 110.2003 Section 7.11.1, 100% PVC-Free®. 2700 version comes with HandyStrap® and Ventex® valve.

Leightning®

Maximum protection and contemporary design.

- Robust steel construction withstands demanding use, especially in tough environments
- Features patented Air Flow Control™ technology for optimal attenuation
- Snap-in ear cushions make replacement quick and easy
- Multiple attenuation levels allow for targeted attenuation for a variety of applications

Headband – L1, L3

- Padded foam headband delivers superb comfort with minimal pressure on the head
- Telescopic height adjustment remains fixed during use

Cap-Mounted – L1H, L3H

- For use with a wide range of hard hats
- Earcups snap in place during use and swing back when not in use
- Includes SKU #13910039 Hard Hat Adapter for AO Safety, Bullard, Jackson, MSA, North (Adapter 3718)

Neckband – L0N, L1N, L3N

- Sleek, anatomical behind-the-neck design for use with face shields, visors, hard hats and other PPE
- Includes attached elastic headband strap for better positioning

Folding – L0F

- Convenient folding design for easy storage
- Folding Earmuff Belt Case also available

Ultraslim – L0N, L0F

- Ultraslim, lightweight earcups – ideal for lower noise levels
- L0N can be worn with welding shields, hard hats and other PPE
- L0F folds to less than 4" wide

From maximum attenuation to maximum value, we set the standard for noise blocking and hearing protection. Our Leightning®, Thunder®, Viking® and QM24+ series earmuffs provide a choice of features and protection ideal for many workers and environments. When you need to block noise, Howard Leight® earmuffs give you the tools to do the job right.

Our patented Air Flow Control technology™ delivers optimal attenuation across all frequencies, without increasing earcup size or weight. A patented baseplate chamber and high-tech non-woven layer manage the flow of air inside the earmuff to control how sound reaches the ear.

The result is better, more consistent overall attenuation for virtually all industrial noise environments. Air Flow Control is a standard feature on all Leightning®, Thunder®, and Viking® series earmuffs.

Sync™ Stereo Earmuff

Play it. Safe.

- Use as passive hearing protector or as stereo earmuffs
- No volume knobs or power switches to coordinate nor batteries to replace
- Ease-of-use is enhanced by maintaining volume and power control through the external device
- Simply plug MP3 players and personal listening devices and listen
- Can be used with MP3 players, mobile phones and other personal listening devices, ideal for use at work or at home

Important

All 3M Filtering Facepieces are NIOSH approved respirators. Before using, you must determine the following:

- I. The types of contaminants for which the respirator is being selected and exposure time.
- II. The concentration level of the contaminant(s). Do not use for particle concentrations that exceed 10 times the applicable government occupational exposure limits.
- III. Whether the respirator can be properly fitted to the wearer's face. Do not use with beards, or other conditions that prevent a good seal between the face and the sealing surface of the respirator.
- IV. Before required use of filtering facepiece respirators, a written respiratory protection program must be implemented, meeting all the requirements of the authority having jurisdiction in your region and/or CSA standard Z94.4 including medical evaluation, training, and fit testing.

Introducing the 3M™ Versaflo™ AP-600 Series Air Filtration Panels (AFP)

Easy to Use
Air Filtration Panels are used to control the pressure of air delivered to a supplied air respirator and remove contaminants from compressed air to make it safer to breathe*. All AP-600 Series AFPs include these features:

- Air pressure regulator and gauge
- Removal of common contaminants from compressed plant air including: oil mist, particulates, water, and nuisance level organic vapours
- 100 CFM / 2830 lpm capacity
- Low pressure drop
- Easy maintenance to save time, money and effort
- Low daily operating cost
- Light Weight at < 10 Kg
- Small Size: 15.9" high x 12.8" deep x 11.8" wide

Honeywell – ONE-Fit™ NBW95 and NBW95V Molded Cup Particulate Respirators

- Exclusive design and shape that contours with the natural shape of the face
- 95% filtration efficiency against solid particulates and non-petroleum based liquid aerosols
- Strong and rigid outer shell prevents mask from collapse in high humidity or moist environments
- Contoured mask fits with the natural shape of the face, minimizing pressure points
- Molded nose bridge comfortably fits a variety of face shapes and sizes
- Dual welded head straps keep the respirator comfortably on the user's face

Series #	Size	Description

North Compact Air Series 200 PAPR

- Triple alarm system creates an audible, vibratory and visual alarm to warn workers of battery life and/or filter clog
- Vibratory alarm that can be felt even through welding jackets; warns workers who are hearing impaired or in high noise environments
- Two visual alarms: one for low battery and a separate one for a clogged filter; workers will know the alarm reason and maintain the PAPR accordingly
- Lightweight for improved comfort and longer wear
- The same unit can be used for either tight facepieces or loose fitting hoods to accommodate different needs and preferences
- Airflow is automatically adjusted to meet OSHA and CSA CFM requirements

North CF1000 Series

Simple – Comfortable – Easy to Use. Those key words describe the new North CF1000 Series supplied air respirator. Using the same breathing tube as the North Compact Air, this supplied air system is compatible with the complete line of North Primair Hoods. It is approved with five brands of couplers, available with a choice of nylon or PVC belt, and Comes with a muffler to dampen noise inside the hood.

- Choose either nylon or PVC belt—nylon offers the most flexibility in movement for optimal comfort; the PVC belt is ideal in decontamination applications
 - Muffler dampens noise in workers hoods for a quieter work environment with less distraction
 - Compatible with North Primair Series hoods offering a wide range of options to choose from; loose-fitting under the chin style to a hood with hard hat, and optional welding shield attachments
- Complete Assembly* includes: Belt, muffler, and breathing tube

Series #	Description	Packaging
CF1001	Assembly with 34" breathing tube and nylon belt	Each

Disposable Respirators AD2 SERIES - N95 CONE SHAPED

Foam nose cushion and adjustable nose clip ensure a secure & comfortable fit. Non-Latex elastic straps do not require pre-stretching allowing for quick fitting and reduce consumption costs. Straps are ultrasonically sealed to the facepiece. No staples providing additional comfort and difficult to pull from the mask reducing consumption costs. Crushed resistant shell will not collapse in hot, humid conditions. Will maintain its shape without the need for a plastic mesh housing. An optional valve version provides enhanced breathing comfort. Available in N95 version approved for minimum 95% efficient protection against non-oil particulates. AD2N95OV offers a layer of activated carbon that filters out nuisance levels of organic vapors below PEL.

AD4 SERIES - N95 FLATFOLD

Flat-Fold N95 Disposable Respirator. Easy donning with a single, continuous strap and no staples. The large cavity provides easier, cooler breathing and allows for uninhibited speech. An optional valve version provides enhanced breathing comfort. Packaged in individually sealed bags.

GS11770 HYS	One Size	Beige

TENACTIV™

Fine, bare hand feel. Nitrile palm for excellent grip. Silicone free. Fine-gauge ASTM cut-level 4 protection. High-strength fiber is incorporated in a way that it cannot come through to the hand for total comfort and extended glove life. TenActiv™ gloves feature lint-free, continuous filament yarn that is stronger than steel on an equal-weight basis

Series #	Size	Color
S18TAFGN	5 - 11	Black

EMERALD®

Truly unsurpassed dexterity in a ANSI level-A6 cut-resistant glove. Blend of composite filament fiber and stainless steel. Reformulated nitrile palm for better grip along with great comfort and dexterity. Extremely high ANSI level-3 abrasion resistance. Unparalleled ANSI level 5 puncture resistance.

Series #	Size	Color
S10NXFN	5 - 11	Black

DEXTERITY®

Lightweight, barehand feel for optimal dexterity. ASTM cut-level 3 protection. Foam nitrile palm coating for good grip. High tactility; perfect for delicate precision work. Made with cut-resistant Kevlar® fiber.

Series #	Size	Color
S18KGFN	5 - 11	Beige

DEXTERITY®

Composite filament fiber blend; ASTM cut-level 2. Foam nitrile palm coating for better grip. High abrasion resistance (ASTM level-3) along with great comfort and dexterity.

Series #	Size	Color
S13NGFN	5 - 11	Black

TENACTIV™

TenActiv™ gloves feature lint-free, continuous filament yarn that is stronger than steel on an equal-weight basis. ANSI cut-level A3 protection. ANSI abrasion-level 3 protection; 3000 cycles (ANSI/ISEA 105-2000). Snug fitting, breathable, and flexible gloves are ergonomically shaped. Nitrile-coating is foamed to increase your grip in oil. Nitrile withstands oils and solvents, making these styles ideal for workers handling sharp glass or oily sheet metal. Factored™ to enhance longevity of coating even after washing and long wear.

Series #	Size	Color
S13TAFNT	5 - 11	Grey

DEXTERITY®

Lightweight, barehand feel for optimal dexterity. ANSI cut-level A3 protection. Polyurethane palm coating for good grip. High tactility; perfect for delicate precision work. Made with cut-resistant Kevlar® fiber.

Series #	Size	Color
S18KGPU	5 - 11	Beige

TENACTIV™

High-strength CF* fiber; no itching or poking through the hand. Lint-free, continuous filament yarn that is stronger than steel on an equal-weight basis. Polyurethane-coating is non-shedding; ideal for applications where contamination is of concern. * Composite filament.

Series #	Size	Color
STAFGPU	5 - 12	Grey

DEXTERITY®

Engineered glove body provides ASTM cut-level 4; 1510 grams of protection 16%. Arc-flash testing placed these gloves at level 2, with a rating of ATPV = 9.2 cal/cm². Flex 80-8. 13 Flame-resistant neoprene palm coating for better grip. ESD (electrostatic dissipating) carbon filament to impart anti-static properties

Tyvek®

- The best balance of protection, durability and comfort
- Comfort fit design allows for a greater range of motion and fewer blowouts
- Breathable inherent barrier protection against hazardous dry particles, aerosols and nonhazardous light liquid splash
- Excellent abrasion resistance; stops particles down to one micron
- One garment for many applications:
 - general maintenance/operations
 - microcrystalline silica
 - lead abatement
 - environmental cleanup
 - asbestos abatement
 - agriculture
 - food processing
 - mold remediation
 - spray painting

E4 SHOCK ABSORBING LANYARD - SP

PeakWorks lanyards are designed and tested to comply to strict CSA and ANSI standards. The shock absorbing action of these lanyards limits and reduces the force of a fall on the worker, significantly reducing injury to the body. SP (Shock Pack) lanyards are comprised of "tear webbing" which is woven in a manner that allows the webbing to tear when it has a load applied to it. This tear webbing is folded and shrink-wrapped into a compact 1 x 2 x 6" (2.5 x 5 x 15 cm) pack that is sewn into the lanyard next to the body connector. Certified to CSA Z259.11-05 standards. Made with a superior grade, heavy-duty 1-3/4" (45 mm) or 1" (25 mm) polyester webbing for maximum strength or 1/4" (6 mm) galvanized plastic coated cable, with tear webbing shock absorber A tear-away absorber limits the arrest force to a maximum of 900 lbs (4 kN) for the E4 category or 1,300 lbs (6 kN) for the E6 category. PeakWorks SP lanyards are available in two categories: E4 (worker weight of 100 to 254 lbs [45 to 115 kg]) and E6 (worker weight of 200 to 386 lbs [90 to 175 kg].)

Series #	Length/Configuration	Hooks	Max. Arrest Force
V8104154	4' (1.2 m), single leg	2 snap hooks (1 body, 1 anchor), 1 tie-back	900 lbs (4 kN)
V8104156	6' (1.8 m), single leg	2 snap hooks (1 body, 1 anchor), 1 tie-back	900 lbs (4 kN)
V8104126	6' (1.8 m), single leg	1 snap hook (body), 1 form hook (anchor)	900 lbs (4 kN)
V8104124	4' (1.2 m), single leg	1 snap hook (body), 1 form hook (anchor)	900 lbs (4 kN)
V8104104	4' (1.2 m), single leg	2 snap hooks (1 body, 1 anchor)	900 lbs (4 kN)
V8104106	6' (1.8 m), single leg	2 snap hooks (1 body, 1 anchor)	900 lbs (4 kN)

POY Style (Partially Oriented Yarn), Lanyards

The PeakWorks Shock Absorbing Lanyards are a POY style (Partially Oriented Yarn), eliminating the need for a shock pack. In the event of a fall the PeakWorks lanyard will ensure that the maximum arrest force is below 900 lbs. The PeakWorks lanyard is available in a variety of styles including single leg and double leg (100% tie-off). Each lanyard, each part is thoroughly tested during the product development stage and is batch tested to confirm conformance.

Series #	Description	Body	Anchor	Size
SA-1000-X	POY Single Leg	Regular	Regular	4, 6 ft
SA-1002-X	POY Single Leg	Regular	Form	4, 6 ft
SA-1040-X	POY Single Leg	Loop	Regular	4, 6 ft
SA-1042-X	POY Single Leg	Loop	Form	4, 6 ft
SA-20000-X	POY 100% Tie Off	Regular	Regular	4, 6 ft
SA-20022-X	POY 100% Tie Off	Regular	Form	4, 6 ft

PeakWorks Tear pack style lanyards are compact and easy to inspect through the clear shrink tube. In the event of a fall the PeakWorks lanyard will ensure that the maximum arrest force is held below 900 lbs. PeakWorks Tear pack lanyards are available in a variety of styles.

PeakWorks lanyards are certified to CSA Z259.11-05.

RB-9800	Reusable Roof Bracket	2 lbs

Trauma Strap

Series #	Description	Weight
V860303	Trauma Strap	0,7 lbs

Confined Space Kit: Tripod, 3-way 60' (18 M) SRL and Bag.

# Série	Description
V85024	Tripod and 3-way SRL Kit with Bag
V85026	Tripod et 60' 3-way SRL and 65' SRL Material

Vertical Lifelines

The PeakWorks vertical lifelines are made from 5/8" Polysteel Rope or Kenmantele Rope.

Series #	Description	Size
VL-1115	5/8" Polysteel w/carabiner	25 to 100 ft
VL-1125	5/8" Polysteel w/snap hook	25 to 100 ft

Automatic Rope Grab

Series #	Description	Size
SA-3206-2	Automatic Rope Grab w/Anti-panic & Shock Absorbing Lanyard	2 ft

Automatic Rope Grab

Series #	Description	Size
RG-21000	Automatic Rope Grab w Anti-panic (Stainless)	Large eye

Roof Bracket

Series #	Description	Weight
RB-9701	Single Use Roof Bracket	1 lbs

Roofers Kits

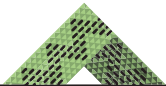

The PeakWorks Roofer's Kit eliminates the need to mix and match product, everything you need is contained in one pail and are CSA approved. Includes:

- FBH-10002A Universal 3 point quick connect class A harness
- 25 ft or 50 ft Polysteel Vertical Lifeline
- ADP Rope Grab W/2 ft Shock absorbing lanyard
- RB-9701 temporary roof bracket with fasteners or
- RB-9800 Reuseable roof bracket (are strongly recommended by CSST in Quebec).

Series #	Description	Length	Weight
RK4-25	Roofer's kit w/ADP Rope Grab and Reuseable Bracket	25'	8 lbs.
RK4-50	Roofer's kit w/ADP Rope Grab and Reuseable Bracket	50'	10 lbs.

Reuseable brackets are recommended by CSST Inspectors

Self-Retracting Lifelines

Self Retracting lifelines are flexible connectors that extend and retract using a spring locking mechanism similar to a seatbelt. Under normal use, the worker can move about while the SRL keeps the connection between the anchor and the harness snug. If the worker slips or falls, the mechanism locks up the SRL and prevents further extension of the lifeline. SRL's are segregated into 3 classes: Class 1 – under 10 feet in length. Class 2 – over 10 feet in length with shock absorbing mechanism. Class 3 – over 10 feet in length with shock absorbing mechanism and rescue retrieval.

Series #	Description	Size
V84533020	Type 2 with 3/16" Galv Cable & Swivel Hook (6m)	20 ft
V84533050	Type 2 with 3/16" Galv Cable & Swivel Hook (6m)	50 ft.

V845533060LE	Type 2 with Galv Cable and Snap Hook	60' (18 m)

The T-line system provides both horizontal and vertical freedom for the worker. It prevents the pendulum effect in the event of a fall. The T-line system can be installed to work around overhead obstruction such as sprinkler, lighting and overhead cranes. It has a smaller fall arrest distance since the system is always under tension. It also produces a much smaller arresting force to the supporting structure savings thousands of dollars in expensive retrofits of structure steel. The T-line also has an integrated rescue retrieval system that can be deployed in the event of a worker fall.

Series #	Description	Size
T-LINE-40 PWK	T-Line retractable life line	40 ft
T-LINE-80 PWK	T-Line retractable life line	80 ft

Miller AirCore™ Harness, Comfort In The Air

COMFORT

- Unique breathable, open-core padding technology provides optimal airflow and reduces heat and moisture build-up; up to 16% less surface area than other padding used on the market
- Contoured ergonomic padding design minimizes contact around a worker's neck, lower back and inner thighs to reduce chafing and irritation
- Patented DuraFlex stretchable webbing provides greater flexibility and mobility

EASY ADJUSTABILITY

- Cam buckles provide easy one-hand adjustment; hold webbing firmly in place with no readjusting required
- Stand-up back D-ring easily adjusts, simplifies attachment
- Quick-connect buckles for easy donning

LIGHTWEIGHT

- Materials and components selected to reduce fatigue for all-day endurance and increased productivity; 16% lighter in weight than competitive harnesses with aluminum hardware and 20% lighter than harnesses with steel hardware.

STYLISH DESIGN

- High-visibility color for greater safety
- Unique and vibrant patterned webbing for easy identification

Ultimate Comfort and Fit

Exceeding worker expectations in comfort, fit, ease-of-use, durability, compliance, flexibility and convenience, the new Miller Revolution Harness provides over 11 key product features from 7 unique components.

Miller Revolution™ Harness

- PivotLink™ Connection – unique rotary design provides greater comfort in bending mobility
- Integrated Accessory System – modular attachment design provides additional connection points for belts / tools / accessories
- ErgoArmor™ Back Shield – semi-flexible back shield minimizes impact from sharp / heavy snap hooks and self-retracting lifelines
- Web Finales – clip-on design safely organizes webbing after proper adjustment
- Self-Contained Label Pack – integrated pack encapsulates labels minimizing damage and loss

A variety of user-friendly accessories available, including: cell phone and radio holders; water bottle holder; bolt, nail and tool holders; hammer loops; plier/tool holder and utility pouch. Universal size (L/XL) fits most

Miller Manyard® II Shock-Absorbing Lanyard

- Contracts 6 ft. to 4 ft. (1.8 m to 1.2 m), greatly reducing the chances of tripping, snagging or dragging
- Specially-woven shock-absorbing inner core smoothly expands to reduce fall arrest force
- Heavy-duty tubular web outer jacket serves as a wear indicator and back-up strap to the red inner core for added safety
- Working load of 310 lbs. (141 kg) and features a warning flag to indicate that it has arrested a fall

Series #	Number of Legs	Harness Connection	Anchorage Connection

216M/6FTGN

The cost-effective and competitive pricing of the new Miller TurboLite Personal Fall Limiters will make shock-absorbing lanyards obsolete on the jobsite. Workers will no longer need to “switch-out” equipment to maintain a safe fall distance.

Miller TurboLite™ Personal Fall Limiter

- First affordable alternative to shock-absorbing lanyards
- Extremely compact and lightweight provides 6 ft. (1.8 m) working capacity; unit attaches directly to the harness back D-ring for greater mobility and versatility
- Engineered webbing for greater abrasion resistance and long service life
- High-strength, impact-resistant nylon housing for maximum durability
- Built-in swivel prevents lifeline from twisting
- Rated for up to a 400 lb. user (181.4 kg)
- Meets all applicable OSHA, ANSI A10.32 and CSA standards

Specialized Harness

FPK2001BD

FPK2003BD

The Dyna-1FR Welders harness is made of Kevlar® webbing which offers the maximum protection against cuts, abrasion and high heat resistance caused by sparks and flames while giving you maximum protection in case of a fall. The Dyna1FR Electrician harness is made out of Kevlar® and offers maximum protection against cuts, abrasions and high heat due to electrical sparks or flashes. The metal components are all coated which makes the harness completely dielectric. Available in sizes Regular and Extra Large. These harnesses meet and exceed the ANSI and OSHA regulations and is CSA and ASTM F887 Arc Flash Certified.

“DYNA-TOWER” Harness

Dyna-Tower harness were designed specifically for the tower industry where comfort, fit and weight are very important. The integrated breathable comfort pad is a perfect size to maximize comfort without causing unnecessary heat zones. All the hardware is aluminum removing all unnecessary weight which makes them lighter than traditional harnesses. The Dyna-Tower harnesses have removable saddles or work seat which provide additional comfort when working at heights for longer period of times. There are two d-rings on the front for ultimate versatility when connecting to ladder systems or rescue/rope access devices. The integrated belt provides comfort when in work positioning but is specifically designed to ensure proper load transfer from the belt to the harness to maximize the load distribution to the body. These harnesses are certified to CSA class ADPLE. They also meet and exceed ANSI and OSHA regulations.

FP0103W	Polyester	8 ft (2,4 m)

“Dyna-I Painters” Harness

The “Dyna-I Painters” harness is light and coated with urethane. This coating allows water, oil, paint and dust to slip easily on the harness. It is easy to wash. It is CSA Group A. This harness is ideal for painters, roofers and people working with oils or in dusty environments. Available in regular size (large) and (very large).

Serie #	Description	Leg Strap Connection
FPC2001BD	Coated with urethane	Bayonet

Vendor Code: DSISAF

Self-Retracting Devices (SRD)

Our self-retracting devices (SRD) are completely made of steel providing the durability to stand up to harsh conditions. They all come with 3/16" (5 mm) galvanized wire cable. Certified to CSA and meet and exceed ANSI and OSHA. RATED FOR 310LBS WEIGHT CAPACITY.

Serie #	Lanyard Material	Weight	Length
FP2NN25C	Galvanized Cable	11 LB (5KG)	25 ft. (8 m)

Tool Tether

Dynamic's tool tether are made to eliminate the risk of dropping tools when working in high environment.

Serie #	Description
FPTOOLTETHER	Tool Tether with Carabiner

Rescue and Retrieval Systems

Trauma straps are made to help workers stay in place when they fall while they are waiting for emergency team. They can put there foot in the straps and stay secure.

Serie #	Description
FPTRAUST	TRAUMA Straps

Anchorage Connectors

At DYNAMIC we offer a complete line of anchorage connectors that meet all needs. DSI's anchorage connectors are produced and are designed to be used for a variety of Fall Arrest applications. Each has minimum tensile strength of 5000 lbs (22kn).

Serie #	Description	Length
FP16/3.5	Disposable anchor sling with protective sleeve.	3,5 pi (1 m)
FP10	Cable sling 1/4" (6 mm) galvanized steel clear PVC coated against corrosion swaged eyes at each end.	3 pi (0,9 m), 4 pi (1,2 m), 5 pi (1,5 m), 6 pi (1,8 m)

D-Ring Anchorage

Anchor to use when working in high environment to provide a secure anchorage to workers.

Serie #	Description
FP3730	D-Ring Anchorage Connector 3/4" Hole

Tripod Kit

The DYNAMIC Tripods and tripod kits are versatile and lightweight. Made of High-strength aluminum construction with adjustable legs and independent leg locking feature which secure legs in place and spiked feet for slippery surfaces. Devices mounted on the outside to maximize work area under the tripod for work and rescue. Available in 7ft (2m) and 9ft (3m). Withstands up to 5,000 lbs. (22kN). Max worker weight capacity of 360lbs. Meets and exceeds all applicable ANSI and CSA standards.

Serie #	Description
FP09907K3W	Tripod kit which includes FP09907 7FT tripo, FP09907/1 device bracket, FP3nn50CR 3-way self-retracting lifeline, and FP1007 Bag

Dyna-Pak Energy Absorbers

Dyna-Pak E4 energy absorber made of polyester webbing. Meets and exceeds ANSI and CSA.

Series #	Harness Connect	Anchorage Connect	Length
FP60311	FP6650HS	FP6650HS	18"
FP60391	FP6650HS	Large D-ring	18"

FP60399	Large D-ring	Large D-ring	16.5"

Vendor Code: DSISAF

Anchorage Connectors

At DYNAMIC we offer a complete line of anchorage connectors that meet all needs. DSI's anchorage connectors are produced and are designed to be used for a variety of Fall Arrest applications. Each has minimum tensile strength of 5000 lbs (22kN).

Series #	Description	Length
FP10	Cable Sling 1/4"(6mm) PVC coated galvanized steel with swaged eyes at each end	3-4-6 ft
FP10F	Cable Sling 1/4"(6mm) PVC coated galvanized steel with flemish eye splice at each end	3-4-6 ft
FP11	Pass-Trough Anchor Sling 2"(50mm) polyester Webbing with (1) small D-Ring and (1) large D-Ring	3-4-6 ft
FP12	Cross Arm Anchor Sling 2"(50mm) polyester Webbing with sewn loop and (1) large D-Ring	3-4-6 ft

Rebar Lanyards

Rebar lanyard made of polyester or steel, 22 inches long. Meets and exceeds ANSI and CSA.

Series #	Material	Harness Connect	Anchorage Connect
FP635113	Polyester	FP6650HS	(2) FP5395HS
FP675113	Steel	FP6650HS	(2) FP5395HS

Rope grabs

Our Rope Grabs are equipped with a Panic Lock feature as well as an orientation lock out feature that will not allow the rope grab to be installed upside down. Meets and exceeds ANSI and CSA.

Series #	Description
FP141L	Rope Grab with Panic Lock (large eye)
FP142L/2	Rope Grab with Panic Lock (large eye), 2ft (0.6m) lanyard & DYNA -PAK energy absorber, (1) FP6650HS snap hook

ROOF BRACKETS

Series #	Description
FP09D	Disposable roof anchor with nails
FP09R	Reusable roof anchor with screws

Vertical Rope Lifelines

Our lifelines are a practical solution for many fall arrest applications. All our vertical lifelines are equipped with (1) termination at one end and (1) carabiner #FP415 at the other end. All our vertical lifelines are shrink wrapped at both spliced termination ends. Meets and exceeds ANSI and CSA.

Series #	Material	Length
FP58KRN25	Kernmantle Rope 16 mm (5/8 po)	25 ft (7.6 m)
FP58KRN50	Kernmantle Rope 16 mm (5/8 po)	50 ft (15.2 m)
FP58KRN100	Kernmantle Rope 16 mm (5/8 po)	100 ft (30.5 m)

FP58EPS100	3-Strand Co-Polymer Blend Rope 16mm (5/8 po)	100 ft (30.5 m)

B-Compliant Kits & Roofer's Kits

The DYNAMIC Roofer's kits are a fast, easy and convenient solution to protect roofers against falls while working on either sloped or flat roofs. Meets and exceeds ANSI and CSA.

Series #	Description
FPKIT02/4	Basic Kit incl: (1) FP4001D Harness, (1) FP65822/4 4 ft (1.22 M) Lanyard, (1) FP1006 Equipment Bag
FPRK099/25DLX	Roofer's Kit Incl: (1) FP58EPS25 Lifeline 25ft (7.6 m), (1) FP4001D Harness, (1) Rope Grab #FP142/2 with 2 ft lanyard and Dyna-Pac energy absorber, (1) Reusable roof anchor #FP09R with screws, (1) storage bucket
FPRK099/50DLX	Roofer's Kit Incl: (1) FP58EPS25 Lifeline 50ft (15 m), (1) FP4001D Harness, (1) Rope Grab #FP142/2 with 2 ft lanyard and Dyna-Pac energy absorber, (1) Reusable roof anchor #FP09R with screws, (1) storage bucket

Vendor Code: TRAGRI

TracX Harness

TracX pad provides extra comfort and minimizes weight on shoulders. Keeps you dry and comfortable with breathable lining. Adjustable sub-pelvic strap. Optional leg pads. Auto-Lock buckles. Dorsal D-ring. Also available with tongue and buckle leg adjustment (AD732/X).

Serie #	Size
AU732/X	S - XXL

Rescue Harness

Y-style keeping shoulder straps in place. Waist D-ring for rescue attachment and controlled descent. Independent leg/seat support. TracX comfort pad. Comfort waist lumbar support. Six-point adjustment. Auto-Lock buckles. Dorsal, Side, Sternal and Frontal-Waist D-rings.

Serie #	Size
FUY119L	M - XXL

Tracpac high-abrasion shock-absorbing lanyards

Available lengths: 4 or 6 ft. (1.2 or 1.8 m). Also available in E6.

C126H/E4.

Serie #	Size	Description
C106Z/E4	3/4 in. (20mm) self-locking snap hook.	One arm
C106H/E4	2.25 in. (57mm) self-locking snap hook.	One arm
C196ZZ/E4	adjustable with tie-back and 3/4 in. (20mm) self-locking snap hook.	One arm
C126Z/E4	3/4 in. (20mm) self-locking snap hooks.	Two arms
C126H/E4	2.25 in. (57mm) self-locking snap hooks.	Two arms
C186ZZ/E4	adjustable arms with tie-back and 3/4 in. (20mm) self-locking snap hooks.	Two arms

Stretchfor shock-absorbing lanyards

Reduces tripping hazards. Stretchable from 4.5 to 6 ft. (1.4 to 1.8 m). Also available in E6.

C506H/E4.

Serie #	Size	Description
C506Z/E4	3/4 in. (20mm) self-locking snap hook	One arm

C526Y/E4	2.5 in. (63mm) aluminium self-locking snap hooks.	Two arms

VersaFit Harness

7-point adjustment including adjustable sub-pelvic strap. Lanyard keeper. Label cover. Quick-connect legs. Dorsal D-ring. Also available with tongue and buckle leg adjustment. (AD732)

Serie #	Size
AC732	S - XXL or One Size

Anchor Slings

Pass-through D-ring. Rated 5,000 lbs. (22.2 kN). Made of polyester webbing. Heavy duty back padding.

Serie #	Size
V4136	15 in. (0.4m) length
V4135	3 ft. (0.9m) length
V4165	6 ft. (1.8m) length

Endless Slings

One big loop. Rated 5,000 lbs. (22.2 kN). Made of heavy duty webbing.

Serie #	Size
V41321	18 in. (0.4m) endless sling
V41323	3 ft. (0.9m) endless sling
V41326	6 ft. (1.8m) endless sling

Tracpac Self-Retracting Lanyards.

Vendor Code: TRAGRI

Lightweight, Permanently attached to soft pack. With 3/4 in. (20 mm) self-locking snap hook at shock pack. Available length: 6 ft. (1.8 m). E4: Capacity of 100 to 254 lbs. (45 to 115 kg). E6: Capacity of 200 to 356 lbs. (90 to 160 kg).

Serie #	Size
C0506Z/E4	3/4 in. (20mm) self-locking hook at the arm E4 model.
C0506Z/E6	3/4 in. (20mm) self-locking hook at the arm E6 model.
C0506Y/E4	2.5 in (64mm) aluminium self-locking snap hooks at each arm E4 model.
C0506Z/E6	2.5 in (64mm) aluminium self-locking snap hooks at each arm E6 model.

Tracpac Self-Retracting Lanyards.

Lightweight. Permanently attached to soft pack. Two arms. With 3/4 in. (20 mm) self-locking snap hook at shock pack and 2 1/2 in. (64 mm) self-locking snap hooks at each arm. Available length: 7 ft. (2.1 m). E4: Capacity of 100 to 254 lbs. (45 to 115 kg). E6: Capacity of 200 to 356 lbs. (90 to 160 kg).

Serie #	Size
C0527Y/1E4	E4 model.
C0527Y/1E6	E6 model.

Blocfor

SELF-RETRACTING LIFELINES Patented system. Integrated energy absorber. Lower cost of ownership. Leading edge capability. Automatically eliminates rope slack. Fiberglass filled casing for added durability. Impact-indicating snap hook. Rubber recoil bumper. Corrosion-resistant components. Isolated drum provides contaminate-free brake components.

Serie #	Size	Description
RT20WC8	20 ft. (6m) Polyamide 6/ABS housing.	B20 web self-retracting lifeline with polyester webbing.
RA20G	20 ft. (6m) Polyamide 6/ABS housing.	AES self-retracting lifeline with galvanized steel wire rope.
RA30G	30 ft. (9m) Polyamide 6/ABS housing.	AES self-retracting lifeline with galvanized steel wire rope.
RA20S	20 ft. (6m) Polyamide 6/ABS housing.	AES self-retracting lifeline with stainless steel wire rope.
RA30S	30 ft. (9m) Polyamide 6/ABS housing.	AES self-retracting lifeline with stainless steel wire rope.
RA30R	30 ft. (9m) Polyamide 6/ABS housing.	AES self-retracting lifeline with synthetic rope.
RA30G/LE	30 ft. (9m)	AES Leading Edge self-retracting lifeline with galvanized steel wire rope and energy-absorber.

Derope

EMERGENCY ESCAPE/RESCUE/CONTROLLED DESCENT DEVICES. Easy to use, minimum training required. Enables the evacuation of one or two persons from an elevated position to a lower level or the ground. Automatically controls rate of descent. Constant descent speed of 235 fpm (72 m/min) for one person and of 295 fpm (90 m/min) for two. Up to 1,300 ft. (400 m) of descent for one person and up to 650 ft. (200 m) of descent for two. Multi-person escape/rescue capability. Snap hooks located at each end of the rope allow for multiple evacuations. Operation can be carried out down a cableway or tagline positioned at an angle between 30° and 60°. Available with hand crank winch for limited lifting. Dual descent pig tails. Intergraded jamming cleat that gives the user more control during a rescue. External cooling fins ensure that the unit is rapidly ready for consecutive descents. Utilizes 3/8 in. (9 mm) Kernmantle rope. Meets ANSI Z359.4-07 and CSA Z259.2.3, type 1E. DEROPE UP A / DESCENT DEVICE SYSTEMS. Incorporates a hand wheel winch mounted on to the base unit which allows the derope® descent device to be used as a lifting device. With a lift ratio of roughly 2:1, the winch is capable of lifting a victim in order to release it from its fall protection sub-system. Derope Up A descent device unit. 6 ft. (1.8 m) vinyl covered wire rope sling (V4173). 3/4 in. (20 mm) carbon steel autolocking carabiner (PM11Z). J-knife (KSOS). Rescue/rope bag (XB23144 or XB26168).

Serie #	Size

Confined Space System

Accessing confined spaces involves a number of life-threatening hazards. These may include the possibility of a fall or the occurrence of being overcome by fumes or gases. Tractel®'s confined-space access and rescue systems are designed to provide a safe means of accessing a confined space area. In an emergency, confined-space systems allow the rescuers to retrieve the injured or unconscious workers without exposing themselves to similar potential hazards.

Serie #	Description
T51F50G	T3F7 tripod, T1T50G – 50 ft. (15 m) galvanized SRL-retrieval device, and necessary connectors (mounting bracket, carabiner & pulley).
T51F100G	Confined space system including: T3F7 tripod, T1T100G – 100 ft. (15 m) galvanized SRL-retrieval device, and necessary connectors (mounting bracket, carabiner & pulley).

Tempo III

TEMPORARY HORIZONTAL KERNMANTLE LIFELINE. The Tempo III temporary horizontal lifeline was designed to be used by a maximum of three persons. It provides a simple and lightweight solution to temporary horizontal fall-arrest applications. It can be adjusted from 3 to 60 ft. (1 to 18 m). Kernmantle rope of 1/2 in. (12.5 mm) which can be adjusted from 3 to 60 ft. (1 to 18 m) between two anchorage points. Allows safe access to horizontal locations. Compact, light and easy to carry with storage bag. TEMPO III rope adjuster with integral carabiner. 60 ft. (18 m) of 1/2 in. (12.5 mm) Kernmantle rope. Two 6 ft. endless slings (V41326). One carabiner (PM11Z). Three travel O-rings (47700). Storage bag (XB0820).

Serie #	Size
H66500	See description

Travsmart

PERMANENT HORIZONTAL LIFELINE SYSTEM. The Travsmart single line system provides a smooth travel. It allows the traveler to move freely over the intermediate anchors, minimizing wear and eliminating user assistance. The user's hands remain free to accomplish whatever task is required. The Travsmart is a permanent horizontal lifeline system that is easy to install and can allow up to five users. It is a hands free system that does not require special training or tools. The system comes with a visual tension indicator and a new in-line energy absorber. Travsmart shall be designed by a qualified person, professional engineer, as part of a complete personal fall arrest system. It can then be installed by any user. The system can be secured to walls, overhead, under an inclined surface, on ground and on posts. Comes with a tension indicator and tensioner. Lightweight components. Can be used for fall arrest or fall restraint. Maximum spacing between anchor points is 50 ft. (15 m). Travsmart kits including: Stainless steel cable assembly, INRS energy absorber(s), Tension indicator, Turnbuckle, Two end anchors. Also available for up-to-5 users.

Serie #	Size
JK-SMSEA3-100	100 ft. (30 m), 1 intermediate anchor.
JK-SMSEA3-150	150 ft. (45 m), 2 intermediate anchors
JK-SMSEA3-200	200 ft. (60 m), 3 intermediate anchors
JK-SMSEA3-250	250 ft. (75 m), 4 intermediate anchors
JK-SMSEA3-300	300 ft. (90 m), 5 intermediate anchors

GasAlert EXTREME

Continuous LCD shows real-time gas concentrations

- Compact and lightweight design makes it comfortable to wear
- Water-resistant
- Simple automatic calibration procedure; compatible with BW MicroDock II automatic test and calibration station
- Full function self-test of sensor, battery status, circuit integrity and audible/visual alarms on start up
- Bright wide-angled visual alarm bars
- Built-in concussion-proof boot
- Equipped with internal vibrating alarm for high noise areas
- Secure and accurate history with datalogging
- Multi-language support in English, French, German, Spanish and Portuguese
- Tamper-proof settings with passcode protection

MicroDock II

Cost effective calibration and bump test management

The most cost effective way to manage the calibration and bump testing of BW Technologies by Honeywell portable gas detectors is through the MicroDock II automated test and calibration system. Fully portable and easily expandable, the MicroDock II requires no computer and provides simultaneous management of up to ten modules. Minimize expenses and maximize productivity

- with the MicroDock II.
- Quick and easy compliance - automatically maintain accurate records
- Automatic bump testing, calibration, record keeping and charging
- One base station with one AC outlet supports up to six modules to suit your application
- Verifies proper performance of detectors
- Reduces maintenance costs
- Multiple MicroDock II systems can be connected via a LAN
- Includes BW Technologies by Honeywell Fleet Manager software for easy data analysis
- Multi-language support in English, French, German, Spanish and Portuguese

by Honeywell

Speedy® Loop Mounting System

For frequent on/off use with protective caps. The Speedy® Loop is fully adjustable to fit any style of hard hat. The Speedy Loop comes as an installation kit

or pre-installed exclusively on Fibre-Metal welding helmets and faceshields. The secure brim tab design does not contain any metal parts—which means it does not affect the dielectric rating of the hard hat. No tools or modifications required.

Quick-Lok® Mounting System

For secure long-term combination use. Quick-Lok mounting blocks come pre-installed exclusively on Fibre-Metal hard hats or sold

separately as a kit. Welding helmets, faceshields, and goggles that are equipped with Quick-Lok cups can be securely mounted onto and removed from the cap without tools.

Quick-Lok® Blades

Adapts most brands of slotted caps to the Quick-Lok Mounting System within seconds. The Quick-Lok block mounting blades simply insert into the accessory slots on nearly

any slotted hard hat. The use of Quick-Lok Blades does not affect the dielectric rating of the hat.

For more information and to access the QuickSwitch demonstration videos, visit www.fibre-metal.com.

WARNING! Fibre-Metal® equipment should only be used in conjunction with the manufacturer's instructions. Failure to follow such instructions could result in serious injury including diminution or loss of vision. Welding helmets and safety eyewear reduce the probability of injuries drastically and must be worn during all welding procedures.

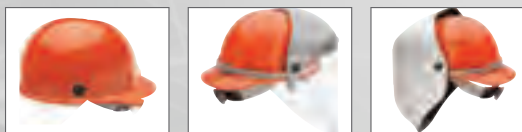

Welding PROTECTION

by Honeywell

QuickSwitch™ System for Combination Protection

For multi-hazard conditions, protective caps must be used in combination with a variety of eye and face protection equipment. For greater cost savings, productivity and convenience, most Fibre-Metal® welding helmets, faceshields, and welding goggles can be combined with protective caps by utilizing any one of our three combination systems to provide the exact degree of protection and comfort required.

Wide View Tigerhood Futura® XXL with ADC Plus ADF Technology

- Wide View (110mm x 110mm), variable shade 9-13, solar powered ADF
 - Featured Angular Dependence Compensation (ADC) Plus Technology, which allows the welder to have a clear view through the filter without any shade variation at any angle
 - Highest optical quality available with a perfect DIN rating of 1/1/1/1, maximizing weld quality, productivity and welder comfort
 - Selectable shade 9-13 with Sensitivity and Delay adjustability
 - Tigerhood Futura helmet shell is lightest full size welding helmet and has a high melting point and impact resistance. Profile allows for the use of required safety eyewear and respirators
 - Classic 3-C free-floating headgear balances and stabilizes helmet for unmatched comfort
 - XXL uses a standard 10.2 cm x 12.7 cm front cover plate, which is quick and easy to replace
- Meets ANSI Z87.1-2010 and is certified to CSA Z94.3 standards

100V Speedglas™ Performance

The 3M™ Speedglas™ 100 Series Welding Helmets delivers the outstanding protection, durability and performance expected from a Speedglas Helmet. Welders appreciate the excellent optical quality and the reliable light-to-dark state switching at an affordable and competitive price. The Speedglas 100 can be used with most arc welding processes such as Stick (MMA), Mig/Mag and Tig applications greater than 10 amps. Ideal entry-level auto-darkening helmet for occasional users such as farmers, maintenance/construction workers and auto mechanics.

Approved to CSA Z94.3 standards for eye and face protection and features a 2-Year Warranty. Light state shade 3, dark shades 8-12 with 3 sensitivity settings and a switching speed of 0.1 ms.

Series #	Description
07-0012-10BL-CA	Black, with ADF 100S-10, Shade 10
07-0012-11BL-CA	Black, with ADF 100S-11, Shade 11
07-0012-31BL-CA	Black, with ADF 100V, Shades 8-12

9100 Designed for ultimate comfort

Precision welding is demanding, but with the Speedglas™ 9100 Helmet you can fully concentrate in safety and comfort. Protecting your eyes and face from radiation, heat, and sparks – while providing an accurate view of your work area – your Speedglas™ 9100 helmet might soon be considered your most important welding tool. The Speedglas™ 9100 Helmet is CSA Approved to CSA Z94.3 Standard.

Series #	Description
9001V	Speedglas™ Helmet 9100 with ADF 9100V; Shades 5, 8 –13
9100XX	Speedglas™ Helmet 9100 with ADF 9100XX, Shades 5, 8 –13

9100FX Welding Helmet, A long-awaited solution for professional welders

Introducing Speedglas™ 9100 FX Welding Helmet, a flip-up combination of an autodarkening welding helmet and a wide-view clear grinding visor. Not only is the clear visor viewing area (8" x 4.25") almost twice as large compared to previous models, we have totally redesigned the helmet to provide a wider field of view in all directions.

- Smooth flip-up ratchet mechanism
- Effortless transition from welding to grinding modes
- New front and side air exhaust vents minimize fogging
- Highly adjustable head suspension for unmatched comfort and balance
- Legendary Speedglas™ auto-darkening technology
- Extended coverage of ears and neck
- Approved to CSA Z94.3 standard

Series #	Description
9100FX	3M™ Speedglas™ Welding Helmet 9100 FX with SideWindows Auto-Darkening Filter 9100V Shade 5, 8-13.

3M™ Adflo™ Powered Air Respirator For cooler, cleaner and more comfortable welding

Vendor Code: 3MCANA

Speedglas™ Welding Shields with the Adflo™ Respirator makes a light compact, all in one system. The exclusive “stackable” configuration of the Adflo™ Turbo Unit means that the gas and vapour cartridge can be stacked onto the particle filter for additional protection from specific organic vapours and acid gases.

How it works...

The Adflo Respirator is designed to provide a supply of filtered air from the Adflo Turbo Unit via a breathing tube to the head top. The system creates a positive pressure, which together with the face seal helps prevent particles and other contaminants from entering the helmet. Exhaled air is quickly expelled away from the face and head areas, keeping the welder comfortable and helping improve productivity.

Occupational Health And Safety Regulation First Aid Kits

Regulation first aid kits meet guidelines required by Federal, Provincial, and Territorial jurisdictions.

Requirements vary from jurisdiction to jurisdiction and are dependent on a number of factors including (but not limited to):

- maximum number of employees at the work site (or per shift)
- location of the place of employment/industry
- type of industry and potential hazards
- proximity or travel time to a medical facility

51263

Federal

If the place of employment is one of the following businesses/industries, it is more than likely to be under federal regulations.

- Banks
- Marine shipping, ferry and port services
- Air transportation, including airports, aerodromes and airlines
- Railway and road transportation that involves crossing provincial or international borders
- Canals, pipelines, tunnels and bridges (crossing provincial borders)
- Telephone, telegraph and cable systems
- Radio and television broadcasting
- Grain elevators, feed and seed mills
- Uranium mining and processing
- Businesses dealing with the protection of fisheries as a natural resource
- Many First Nation activities
- Most federal Crown corporations
- Private businesses necessary to the operation of a federal act

8760

PERFORMANCE SERIES:

Model 8760 standard skid-mounted shower and eye/face wash with a tempered water blending system, internal hot water supply, bleeding system, alarm and light. Includes shower, eye/face wash and drench hose with scald protection bleed valve.

9400

Model 9400

Steam water heater and thermostatic mixing valve that mixes hot and cold water to supply tempered water to emergency shower and eyewash fixtures requiring flow up to 25 gpm (95 L). Unit employs a paraffin filled thermostatic mixing element. Lowest internal pressure drop where supply pressure is low, and a high Cold Water Bypass flow rate of 24 gpm (91 L).

8317CTFP

120 VAC cable heated, freeze-resistant, combination shower and eye/face wash, with top or bottom supply, and with AXION® MSR eye/face wash and showerhead.

Safety features include: a thermal actuator bleed valve, 120V thermostat cable double wrapping inside piping, 3/4" (1.9 cm) insulation surrounding piping and outside jacket to prevent freezing, and universal emergency sign. For extreme weather conditions dropping down to -30° F (-34.4° C). Universal design allows for top or bottom water supply. Reducing installation time, entire unit is pre-built and fully water/pressure tested. Solid stainless steel pipe stanchion and galvanized fittings make for one sturdy piece of corrosive resistant equipment. Rated Class 1, Div 2, Group B, C & D. Tempering code T6.

8300-8309

Combination emergency shower & eye/face wash with AXION® MSR eye/face wash and showerhead.

Streams provide zero vertical velocity stream engineering with even laminar flow for enhanced comfort, stability and effectiveness. AXION® ABS plastic drench showerhead with flow control delivers dispersed flow for uniform drenching. Stainless steel push flag for eye/face wash activation, round 11" (27.9 cm) stainless steel bowl, stainless steel pull rod for shower activation, mesh in-line eye/face wash strainer to collect line debris, and ball valves with stainless steel ball and stem for durability. Pipe and fitting: 1-1/4" Schedule 40 hot-dipped galvanized steel. Supply and Waste: 1-1/4" IPS.

8905

Model 8905

Wall mounted eye/face wash and body spray shall include an AXION® MSR eye/face wash head which features an inverted directional laminar flow which achieves zero vertical velocity supplied by an integral flow control, chrome plated brass stay-open squeeze lever valve, 12 foot (365.8 cm) yellow recoil hose with chrome-plated swivel fitting at one end, universal sign, and 1/2" IPS inlet. In order to comply with state codes the use of a vacuum breaker is required with all hand held eye/face wash body spray units (Haws offers model SP212)

7610

Model 7610

Barrier-free sink/counter top or wall mount eye/face wash shall include an AXION® MSR eye/face wash head with inverted directional laminar flow which achieves zero vertical velocity supplied by an integral flow control. Also included; polished chrome brass single action pull-down valve body, wheelchair accessibility, universal sign, and 1/2" O.D. (1.3 cm) slip joint inlet.

Vendor Code: HAWSUS

7501

Gravity-operated, portable eyewash that supplies a continuous flow of clean water for a full 15 minutes at .4 gpm (1.5 L).

FDA approved high-density, green polyethylene tank is easily activated by pulling the yellow activation arm down to the open position. Unit has a wide-fill opening with threaded cap to permit easy inspection, cleaning and filling. The wall-hung, 9-gallon capacity portable eyewash is easy to relocate and comes with a mounting bracket. Measurements: 14-1/2" high, 22" wide, 10-1/8" deep (36.8 x 55.9 x 25.7 cm)

AX14

Model AX14 AXION Advantage®

Eye/face wash system shall include the AXION® MSR eye/face wash and showerhead, stainless steel connecting hardware, ANSI eyewash gauge, tape measure, complete installation instructions and ANSI compliance information. The AXION Advantage system is ANSI compliant when installed correctly based on manufacturer guidelines and when tested against the ANSI Z358.1-2009 checklist included with the product. The materials provided offer complete ANSI compliance tools and instructions. At the current time, ANSI does not regulate product brands, models, or the interchange of product components.

7620

The AXION® eyePOD® is a polished stainless steel, faucet-mounted eyewash.

The AXION® eyePOD® features an inverted flow design that is consistent with all EMT, emergency room and doctors' office protocols by sweeping contaminants away from the vulnerable nasal cavity. Eyewash streams provide zero vertical velocity stream engineering with even laminar flow for enhanced comfort, stability and effectiveness. Thermostatic shutoff that will protect the user from water over 100° (37.8° C) by shutting off the eyewash. Supplied with standard commonly used faucet adaptors. .5 gpm (1.9 L) faucet outlet. Optional 1 gpm (3.8 L) laminar flow faucet outlet also supplied.

9001

120 VAC emergency alarm and light system. Buzzer and flashing light are activated by a double-pole, double-throw flow switch.

Switch will activate at 2.4 gpm (9.1 L). Voltage: 120 VAC, 50 or 60 cycles. Supply: 1-1/4" IPS. Multiple set of contacts for remote activation alarm sites. CSA electrical certified, TYPE 4. (Nema 4 equivalent).

9082

'Sterile' bacteriostatic preservative for use in portable eyewash stations.

One 5 oz. (148 ml) bottle will preserve 5 to 20 gallons (18.9 to 75.7 L) of portable water for up to three months. Four bottles per carton. 3 year shelf life.

7260B-7270B

Wall-mounted, eye/face wash with AXION® MSR eye/face wash head.

Eye/face wash streams provide zero vertical velocity stream engineering with even laminar flow for enhanced comfort, stability and effectiveness. Features a round 11" (27.9 cm) green ABS plastic receptor and aluminum wall bracket for long life. Includes a mesh in-line strainer to collect line debris, and ball valve with stainless steel ball and stem for durability. Supply: 1/2" IPS. Waste: 1- 1/4" IPS.

**Also available in floor-mounted version.*

Fendall 2000

- Delivers 100% sterile saline from a 100% sterile delivery system
- Built-in alarm system that sounds when the unit has been activated and again when the injured individual has completed the required 15-minute flush
- Sleek assembly that fits nearly anywhere
- Highly portable and easily moved when work stations move
- Easy-view side windows to check sterile solution expiration date and key contact information
- ESP™ Enabled Safety Products RFID technology gives you instant, accurate safety information about the cartridge
- Heated Accessory enables use in extreme cold environments (sold separately)
- Meets ANSI Z358.1-2009 15-minute flush requirement for primary eyewash stations

DistriMag^{MC}

The solution for high-volume and high management cost items

This satellite storeroom allows you to considerably reduce costs related to high volume consumables such as safety and security items (gloves, glasses, masks), abrasives, industrial supplies, items for welding, etc.

In order to optimize the distribution of high-volume usage items, we can combine lockers or scanners to control oversized, bulk or specialized items.

The DistriMag^{MC} is managed by two independent software programs which are very reliable and easy-to-use. The data is located at the customer's site, which ensures the integrity and security of the network.

VirtuMag^{MC}

A virtual storeroom, linked and controlled by DistriMag^{MC}, that offers you the possibility to order, through the DistriMag^{MC} interface, items that are not physically kept on inventory.

LockMag^{MC}

The solution for oversized, bulk and specialized items

Linked to and controlled by the DistriMag^{MC}, the LockMag^{MC} is an automated distribution system for heavy or oversized specialized items. It offers the same advantages as the DistriMag^{MC} in addition to widening the scope of products being distributed.

Integrated into the same software, manage DistriMag^{MC} and LockMag^{MC} in no time at all!

InMag^{MC} & Mobile^{MC}

The solution for storeroom inventory management

InMag^{MC} is a management module for factory storeroom articles. Usually used with a barcode system, it is designed with a user-friendly software system which allows you to manage all of the items in your storeroom.

GoMag^{MC} & Mobile^{MC}

The solution for dynamic tool-sharing management

GoMag^{MC} controls, manages and plans the ins and outs of tools all the while minimizing the time in managing and requesting items.

GoMag^{MC} is also capable of managing warranties, maintenance cycles and tool traceability. Can be used with lockers or a PDA.

Materials

Adhesive Vinyl (VS)

For light-duty applications. The ideal choice for indoor and sheltered outdoor marking needs. Mounts to all curved areas such as pipes, poles and secondary containers.

- 4-mil thick surface printed matte surface
- Permanent acrylic adhesive
- Moisture-resistant
- Service temperature range: -20°F to 140°F
- Durability: 2 years outdoors
- Square corners and scored backing for quick peel-off and application

Plastic (VP)

Semi-flexible, economical and appropriate for medium-duty use — ideal for indoor and sheltered outdoor environments.

- Ideal for flat surfaces with enough flex to mount on slightly curved areas
- .055" thick with good impact resistance and surface image with non-glare finish
- Contains UV inhibitors
- Service temperature range: -90°F to 168°F
- Durability: 2 years outdoors
- Rounded corners and 3/16" mounting holes

Aluminum (VA)

Get the strength of metal, without the rust. Superior abrasion and chemical resistance for indoor and outdoor environments.

- Printed image on rigid .040" aluminum backing
- Protected by high-gloss UV over-coat
- Service temperature range: -20°F to 140°F
- Withstands splashes and washdowns
- Endures outdoor environmental conditions
- Rounded corners and 3/16" mounting holes

Custom Signs Made Easy

- No set-up fees
- Unlimited colors with no additional charges
- No minimum order requirements
- High-definition, full-color graphics at no additional charge
- Comprehensive, free design support

Lockout Devices

Circuit Breaker Lockout

Pump action of handle quickly secures lockouts to breaker switch.

This unique design allows for fastest lockout application time and quick and easy removal as well. The unit uses metal jaws for optimum secure grip. The Circuit Breaker Lockout is a visible safety red to call attention to the locked out switch.

- Fast secure application, quick-release tab
- Easily apply with just one hand if needed
- Octagon peg allows specially designed Tab Tags (sold separately) to be secured directly to the device
- Accommodates up to 9/32" dia. padlock shackles (sold separately)

Item	Size	Serie #
Single Pole	15/16"W x 3 1/3"L x 1 1/2"D	KDD160
Double Pole	1 3/4"W x 3 1/3"L x 1 1/2"D	KDD161
Triple Pole	2 1/2"W x 3 1/3"L x 1 1/2"D	KDD162

Ball Valve Lockout

Wingspan halves open and close

Stop valves from being turned with unique gull-wing design ball valve lockout.

- Quickly and simply secure over any closed ball valve handle
- Secure with padlock (sold separately)
- Bright red, plastic device works with ball valve handles either perpendicular or parallel to pipe
- Includes red "Danger Locked Out" label

Fits Ball Valve	Overall Size	Serie #
3/8" – 1 1/4"	15/16"W x 3 1/3"L x 1 1/2"D	KDD442
1/2" – 2"	4 1/2" x 5 2/3" x 5 2/3"	KDD440

Gate Valve Lockouts

Prevent gate valve handles from being turned without authority.

- Hinged clamshell housing fully encloses the valve handle and prevents unauthorized access
- Tough plastic octagon features three shackle holes for group lockout*
- Unique pry guard edge
- Included safety label has space to write in lockout information

*KDD470 has only one padlock shackle hole.

Fits Valve Handle Dia.	Size	Serie #
1" – 2-1/2"	3" x 1"	KDD470
2-1/2" – 5"	5-1/2" – 2"	KDD471
5" – 6-1/2"	7" x 2"	KDD472
6-1/2" – 10"	10-1/2" – 3"	KDD473
10" – 13"	13" x 3-1/2"	KDD474

Universal Wall Switch Blockout Cover

Switch locked in up position

Flip the switch, flip the cover.

- Dual use blockout device works on both rocker/toggle and flat paddle switches
- Uses existing switch plate screws to attach the cover device
- Fold-down, living hinge blocks access to screws, preventing removal
- Secure with standard padlock (sold separately); tag available separately
- Measures 4-1/2"H x 1-5/8"W x 7/8"D
- Unique design allows the device to be applied in the direction of the desired off position

Series #
KDD139

StopPlug™ Lockout

Prevent unauthorized, accidental plug-in of power cord.

- Insert plug, close down, and secure with padlock (sold separately)
- Tamper-proof, pry-guard edge design
- Multi-Plug lockout fits most 110, 220, 550, or 600 VAC plugs – measures 3"H x 3"W x 6"L.
- 110 Plug lockout fits most 110 VAC plugs – measures 2 1/4"H x 2 1/4"W x 3 1/2"L.

Column Protector

These colors are also available.

Eagle's Column Protectors (42" high) offer affordable protection for warehouse and factory columns and beams. Absorbs impact from tow motors, minimizing column, fork truck, and personnel damage and injury. These yellow blow-molded 100 percent high-density polyethylene (HDPE) protectors are resistant to most chemicals and feature key-lock to prevent slippage and assist with installation alignment. No tools required. Two halves attach with easy-to-install black straps (included).

Series #	Description	Size	Weight
1704	Column Protector dia. 4-6"	13" x 13" x 42"	16 lb.

Double Drum Work Station

A secure way to store drums inside or outside. For the storage of one or two drums, it can be moved via a forklift and have optional dolly allowing for easier movement on worksite. Includes locks for secure storage

Serie #	Size	Capacity	Weight Capacity
1626	60" x 34" x 46"	110 gal.	4 000 lb.

Safety Cabinets

For more information about our safety cabinets (security cabinets, flammables, pesticides and acids), please call your nearest Wajax branch.

Double Drum Spill Platform

The Eagle 2 Drum Modular Platform is constructed of durable (yellow) high density polyethylene (HDPE) for excellent chemical resistance. This platform includes Eagle's patented removable (black) HDPE grating for easy cleaning and features a low profile. Also compatible with Eagle's Poly Pallet Ramp (model 1689) for easy loading and unloading. The design allows for multiple configurations and adds flexibility to your spill protection when used in conjunction with our Eagle's 1 drum (model 1633) and 4 drum (model 1634) modular platforms. Platforms can be easily connected with built-in U Channels.

Serie #	Size	Capacity	Weight Capacity
1632	26.25" x 51.5" x 6.5"	30 gal.	5 000 lb.

Ultra-Spill Pallet Economy Models®

High load capacity – 6,000 lbs. for 4-Drum Model, 3,000 lbs. for 2-Drum Model. Bright, safety yellow sidewalls are translucent, offering convenient visual leak detection. 100% polyethylene construction – compatible with a broad range of chemicals, including acids and corrosives. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

Serie #	Description	Size	Capacity	Weight
2504	Without drain	53 in x 29 in x 16,5 in	66 gallons	63 lbs.
2505	With drain	53 in x 29 in x 16,5 in	66 gallons	63 lbs.

Ultra-Spill Pallets®

High load capacity – 6,000 lbs. for 4-Drum Model, 3,000 lbs. for 2-Drum Model. Bright, safety yellow sidewalls are translucent, offering convenient visual leak detection. 100% polyethylene construction – compatible with a broad range of chemicals, including acids and corrosives. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

Serie #	Description	Size	Capacity	Weight
1010	2 drums, without drain	53 in x 29 in x 16,5 in	66 gallons	63 lbs.
1011	2 drums, with drain	53 in x 29 in x 16,5 in	66 gallons	63 lbs.
1000	4 drums, without drain	53 in x 53 in x 11,75 in	66 gallons	90 lbs.
1001	4 drums, with drain	53 in x 53 in x 11,75 in	66 gallons	90 lbs.

Ultra-Spill Decks®

Ultra-Spill Decks are available in 1, 2, and 4-drum modules. Modules are easily connected together with bulkhead fittings to allow a virtually unlimited number of customized configurations. Applications include hazardous waste collection, storage of virgin chemicals, drum dispensing, and battery storage. Optional Loading Ramps provide added drum handling safety and convenience. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

Serie #	Description	Size	Capacity	Weight
1175	For 6 drums	74,25 in x 50 in x 5,25 in	66 gallons	86 lbs.
1075	For 8 drums	98,5 in x 50 in x 5,25 in	75 gallons	110 lbs.

Ultra-Spill Deck Bladder System®

Compact footprint saves valuable floor space — perfect for drum waste collection usage. Use the Spill Deck Bladder Systems in place of taller containment pallets — low 5 3/4" deck height offers significant safety and handling benefits. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

Serie #	Description	Size	Capacity	Weight
1320	For 1 drum	26 in x 30,5 in x 5,75 in	77 gallons	27 lbs.
2329	For 2 drums	52 in x 30,5 in x 5,75 in	88 gallons	44 lbs.
2330	For 4 drums	52 in x 57 in x 5,75 in	110 gallons	66 lbs.

Ultra-IBC Spill Pallet Plus®

Low profile, 28" overall height— allows safe and convenient IBC tank handling and dispensing. All polyethylene construction — offers excellent chemical resistance and will not rust or corrode. Low-cost design with value-added features and benefits. Available with optional. Bucket Shelf (Part# 1160) — catches leaks or spills during dispensing. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

Serie #	Description	Size	Capacity	Weight
1157	Without drain	62 in x 62 in x 28 in	77 gallons	27 lbs.
1158	With drain	52 in x 30,5 in x 5,75 in	88 gallons	44 lbs.

Ultra-Utility Trays®

Heavy-duty polyethylene construction — will not rust or corrode. Ribbed bottom keeps cans, pails and other containers elevated above small spills or leaks. Nestable for easy storage when not in use.

Serie #	Size	Capacity	Weight
1031	12 in x 48 in x 4,75 in	12 gallons	7 lbs.
1035	36 in x 36 in x 4,75 in	27 gallons	11 lbs.

Vendor Code : ULTRAT

Vendor Code : ULTRAT

Ultra-Hard Top Plus Models®

Tall 23 3/4" head space easily accommodates rotary drum pumps and large conical funnels. Low profile (8 3/4") containment pallet positions drum-top funnels at a safe, convenient level to pour hazardous wastes. 100% polyethylene construction will not rust or corrode. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations. Helps meet Stormwater Management Regulations.

Serie #	Description	Size	Capacity	Weight
9640	For 1 drum, without drain	36 in x 36 in x 66 in	70 gallons	75 lbs.
9641	For 1 drum, with drain	36 in x 36 in x 66 in	70 gallons	75 lbs.

Ultra-IBC Hard Top®

Upper roll-top door and lower swingout doors combine to allow easy and convenient access to IBC. Low profile (28" height), 360-gallon containment sump allows safe material handling and dispensing. Forkliftable and lockable. Helps meet Stormwater Management Regulations — NPDES, 40 CFR 122.26 (1999). Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

Serie #	Description	Size	Capacity	Weight
1162	Without Drain	64,5 in x 62 in x 96 in	365 gallons	520 lbs.
1161	With Drain	64,5 in x 62 in x 96 in	365 gallons	520 lbs.

Ultra-Overpacks®

95 and 65 gallon Plus models comply with UN Packaging Group 1 (X-Rating) and are certified for use as DOT Salvage Drums, 49 CFR 173.3 (c). Visit SpillContainment.com for more regulatory information. Excellent chemical resistance, including acids, caustics, and corrosives. Convenient, "no-tools required" closures are perfect for clean-up and spill response activities. Nestable design and low tare weight allow convenient storage and reduced transportation costs.

Serie #	Size	Capacity	Weight
0580	32,25 in x 25,5 in x 41,25 in	95 gallons	48 lbs.
0582	29 in x 21 in x 36,25 in	65 gallons	40 lbs.

Ultra-Spill Berms®

Unique, urethane material "weeps" into small cracks and crevices to seal off liquid flow. Spill Berm is non-absorbing and is easily cleaned for repeated use. Helps comply with NPDES and SPCC.

Serie #	Size	Color	Weight
2100	10 ft x 4 in x 2,25 in	Orange	31 lbs.

Drain-Seal®

Reinforcing mesh is "sandwiched" between layers of polyurethane — increases durability and resistance to tearing. Unique, urethane construction allows the pad to deform and seal off most drains — temporarily "seals" to any smooth surface. A valuable addition to any emergency response plan, spill kit, SPCC, or stormwater management program.++ Unlike some alternative products, BOTH sides will quickly seal drains — there is no specified "top" or "bottom."

Serie #	Size	Form	Weight
2130	36 in x 36 in x 3/8 in	Square	20 lbs.

Drain-Guard®

The Ultra-Drain Guard is engineered to filter stormwater waste before it becomes a problem in the water system. As a storm drain filter, it removes contaminants like litter, sand, and oil from stormwater flow. Its geotextile fabric and easy installation makes it ideal for industrial facilities, construction sites, and parking lots where stormwater runoff is likely to carry oil, eroded soil, debris, and fuel contaminants. Helps comply with NPDES, 40 CFR 122.26 (1999) and TMDL requirements - All Models.

Serie #	Size	Capacity	Weight
9217	48 in x 36 in x 18 in	Up to 0.87 gallons of oil and 40 lbs. of sediment	1 lbs.

Vendor Code : ULTRAT

Foam Wall Containment Berm®

Capture nuisance leaks and spills from vehicles, oily equipment, tanks and drums. No set-up required - simply unfold for quick deployment. Folded units require minimal storage space. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations. Custom sizes and sidewall height available.

Serie #	Description	Size	Capacity	Weight
8385	2 inch thick	6 ft x 7,2 ft	25 gallons	24 lbs.
8386	2 inch thick	8 ft x 9,2 ft	55 gallons	30 lbs.

Rapid Rise Containment Berm®

Sidewalls remain down during normal operations, loading and unloading — minimizing trip hazards. In the case of a spill, the foam ring around the top perimeter of the Containment Berm rises with the level of spilled liquid. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations. Custom sizes available.

Serie #	Description	Size	Capacity	Weight
8433	Rapid Rise model	15 ft x 66 ft	5,610 gallons	302 lbs.

Ultimate Model Containment Berm®

Once a vehicle has entered or exited, the walls automatically spring back to their vertical position. Standard material of construction is Copolymer 2000™ (28 oz.). Other rugged, chemical resistant materials available. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

Serie #	Description	Size	Capacity	Weight
8505	Ultime Model	12 ft x 60 ft	5,385 gallons	297 lbs.

Collapsible Wall Model Containment Berm®

The Collapsible Wall Model Containment Berm features rugged PVC sidewall assemblies for sidewall support. Simply swivel the "feet" of the PVC supports to lower or raise the sidewalls in just seconds! Standard material of construction is Copolymer 2000™ (28 oz.). Other rugged, chemical resistant materials available. Meets SPCC and EPA Container Storage Regulation 40 CFR 264.175 Spill Containment Regulations.

Serie #	Description	Size	Capacity	Weight
8405	Collapsible model	4 ft x 6 ft	79 gallons	26 lbs.

Ultra-Pop Up Pools®

Unique, patented design — foam ring rises with level of liquid to raise sidewalls. Excellent chemical resistance, including diesel fuel, antifreeze, acids, caustics, and corrosives. Helps minimize environmental damage and related clean-up costs.

Serie #	Description	Size	Capacity	Weight
8150	Elastic steel model	12 in x 64 in x 76 in	150 gallons	7 lbs.
8102	Economic model	12 in x 53 in x 64,5 in	100 gallons	5 lbs.

Vendor Code: SPIEEN

Blended Poly Oil and Universal Product Line

These pads/rolls contains a very high recycled content. Manufactured using recycled ultra long poly fibers unlike other products made from pulverized polypropylene scrap. Exceptional web structure provides added strength. Great for outdoor use, very wet environments or if you need to wrap around tight fitting equipment.

Series #	Description-Size-Units/Case
AMEP100	Pads, 16"X18", 100
AMER150	Rolls, 28"X150', 1

Duck Ponds

Reliable and reusable secondary containment for oils, fluids, gasoline. Conveniently folds saving storage space. Can withstand temperatures -55°F/-48°C.

Roof Leak Diverters

Catch roof leaks and divert them away from equipment, inventory and personnel. Large, vinyl-coated fabric catches roof leaks and channels them to standard hose hook-up. Hose can be directed to proper drainage point. Heavy-duty grommets in each corner make installation quick and easy.

Series #	Size

SCPR4	6 Drum Low-Profile	77" X 53" X 6"	61 gal.	3 000 lbs	65 lbs

Absorb-it oil only sonic bonded melt blown sorbents deliver quick and reliable, absorbency of all oil based liquids. Constructed from high grade polypropylene, our sorbents are available in three different weights, heavy, medium and light.

Heavy weight is the most absorbent. It offers the maximum absorbency per square inch. Ideally suited for the biggest of jobs.

Series #	Description	Size	Qty/CS
SPOQ-HR	Heavy Weight White Oil Only Roll	30" x 150'(76cm x 46m)	1
SPOQ-HSR	Heavy Weight White Oil Only Split Roll	15" x 150'(38cm x 46 m)	2
SPOQ-HS100	Heavy Weight White Oil Only Pads	15" x 18 " (38cm x 46 cm)	100

Medium weight offers the best value in terms of absorbency per piece and cost. Suited for any job.

Series #	Description	Size	Qty/CS
SPOQ-MR	Medium Weight White Oil Only Roll	30" x 150'(76cm x 46m)	1
SPOQ-MSR	Medium Weight White Oil Only Split Roll	15" x 150'(38cm x 46 m)	2
SPOQ-MS100	Medium Weight White Oil Only Pads	15" x 18 " (38cm x 46 cm)	100

Light weight offers the most flexibility in terms of use. Thinner than heavy and medium sorbents, it is great for cleaning tools or cleaning up small spills.

Series #	Description	Size	Qty/CS
SPOQ-LR	Light Weight White Oil Only Roll	30" x 300'(76cm x 46m)	1
SPOQ-LSR	Light Weight White Oil Only Split Roll	15" x 300'(38cm x 46 m)	2
SPUQ-HS100	Light Weight White Oil Only Pads	15" x 18 " (38cm x 46 cm)	200

Absorb-it universal sonic bonded melt blown sorbents deliver quick and reliable absorbency for many types of chemicals including; acids, bases, antifreeze and oil. Constructed from high grade polypropylene, our sorbents are available in three different weights, heavy, medium and lightweight.

Heavy weight is the most absorbent. It offers the maximum absorbency per square inch. Ideally suited for the biggest of jobs

Series #	Description	Size	Qty/CS
SPUQ-HR	Heavy Weight Grey Universal Only Roll	30" x 150'(76cm x 46m)	1
SPUQ-HSR	Heavy Weight Grey Universal Split Roll	15" x 150'(38cm x 46 m)	2
SPOQ-HS100	Heavy Weight Grey Universal Pads	15" x 18 " (38cm x 46 cm)	100

Medium weight offers the best value in terms of absorbency per piece and cost. Suited for any job.

Series #	Description	Size	Qty/CS
SPUQ-MR	Medium Weight Grey Universal Roll	30" x 150'(76cm x 46m)	1
SPUQ-MSR	Medium Weight White Oil Only Split Roll	15" x 150'(38cm x 46 m)	2
SPUQ-MS100	Medium Weight White Oil Only Pads	15" x 18 " (38cm x 46 cm)	100

Light weight offers the most flexibility in terms of use. Thinner than heavy and medium sorbents, it is great for cleaning tools or cleaning up small spills

Series #	Description	Size	Qty/CS
SPUQ-LR	Light Weight Grey Universal Roll	30" x 300'(76cm x 46m)	1
SPUQ-LSR	Light Weight Grey Universal Split Roll	15" x 300'(38cm x 46 m)	2
SPUQ-LS200	Light Weight Grey Universal Pads	15" x 18 " (38cm x 46 cm)	200

Absorb-it Hazmat sonic bonded melt blown sorbents are colour coded yellow to comply with hazmat regulations. These sorbents will absorb all types of liquids. Constructed from high grade polypropylene. Use Hazmat sorbents for aggressive chemicals.

Typically hazmat spill prevention programs are stocked with heavy weight sorbents to ensure maximum absorbency in the event of spills.

Series #	Description	Size	Qty/CS
SPHZ-HR	Heavy Weight Hazmat Yellow Roll	30" x 150'(76cm x 46m)	1
SPHZ-HSR	Heavy Weight Hazmat Yellow Split Roll	15" x 150'(38cm x 46 m)	2
SPHZ-HS100	Heavy Weight Hazmat Yellow Pads	15" x 18 " (38cm x 46 cm)	100

Socks

Absorb-it socks are filled with the highest quality absorbent material and are wrapped, in a durable circular knit sleeve. We carry a full line of absorbent socks, White Oil Only, Grey Universal, Yellow Hazmat, and Grey Corn Cob.

Use as a preventative barrier around a tank or a reservoir, or as barrier to absorb spills.

Series #	Description	Size	Qty/CS
SSUQ-40	Grey Universal Absorbent Sock	3" x 4'(8 cm x 1 m)	40

Use as a preventative barrier around a tank or a reservoir, or as barrier to absorb spills.

Series #	Description	Size	Qty/CS
SSOQ-40	White Oil Only Absorbent Sock	3" x 4'(8 cm x 1 m)	40

Absorb-it socks are filled with highest quality absorbent material and are wrapped, in a durable circular knit sleeve. We carry a full line of absorbent socks, White Oil Only, Grey Universal, Yellow Hazmat, and Grey Corn Cob.

Use as a preventative barrier around a tank or a reservoir, or as barrier to absorb spills.

Series #	Description	Size	Qty/CS
SSHZ-40	Yellow Hazmat Absorbent Sock	3" x 4'(8 cm x 1 m)	40

Booms

On land or water, absorbent booms are the ideal solution to contain large spills. Use them as a containment system to prevent the spread of liquids. When used on water, our booms are constructed extra tough so as not to be pulled apart when being pulled by a boat.

Grey universal booms can be used on land to contain chemical spills. These universal booms are handy in the plant or shop as a way to keep fluids contained in one place during maintenance.

Series #	Description	Size	Qty/CS
SBUQ-4	Grey Universal Boom	5" x 10'(13 cm x 3 m)	4

White oil only booms can be used either on land or on water. Available in two different diameters, they make a great barrier to stop the spread of oil.

Series #	Description	Size	Qty/CS
SBOQ-4	White Oil Only Boom	5" x 10'(13 cm x 3 m)	4
SBOQ-8	White Oil Only Boom	8" x 10'(20cm x 3m)	4

Whether big or small we have the spill kit suited for the job. We carry Oil Only, Universal and Hazmat spill kits. Don't see a kit here that you want, we can custom pack a spill kit to meet your specifications.

Vendor Code: WIPIND

Our vehicle kits are small and compact and can easily fit in a trunk or below a bench.

Series #	Description	Qty/CS
SKO-B	Only Truck Kit 1 Yellow Spill Kit Bag • 1 Bag of 4lbs of Wiping Cloths • 10 Sorbent Oil Only Pads • 1 Pair of Nitrile Gloves • 1 Oil Only Absorbent Sock • 1 Bag for disposal	5
SKU-B	Universal Truck Kit 1 Yellow Spill Kit Bag • 1 Bag of 4lbs of Wiping Cloths • 10 Sorbent Universal Pads • 1 Pair of Nitrile Gloves • 1 Universal Absorbent Sock • 1 Bag for disposal	5

Our 30 gallon kits are the perfect size to keep in a small workshop or garage.

Series #	Description	Qty/CS
SKO-30	Oil Only 30 Gal Kit 1 Yellow 30 Gal Lab Pack with Screw lid • 1, 5"x10' Oil Only Boom • 10 Sorbent Oil Only Pads • 1, 15"x150' Oil Only Sorbent Roll • 2 Anti-Static Disposal Bags	1
SKU-30	Universal 30 Gal Kit 1 Yellow 30 Gal Lab Pack with Screw lid • 1, 5"x10' Universal Boom • 10 Sorbent Oil Only Pads • 1, 15"x150' Universal Sorbent Roll • 2 Anti-Static Disposal Bags	1

Our 65 gallon kits are the perfect size for a large plant or job site. Available in Oil Only, Universal or Hazmat.

UNIVERSAL • ABSORBS OILS COOLANTS, SOLVENTS AND WATER

Vendor Code: NEWPIG

superior technology
inside and out

Eight layers of melt-blown polypropylene make PIG Mat the toughest mat on the market!

PIG Poly-Back Universal Mat prevents liquids from reaching your floors and can also be placed over a spill with poly backing up to help suppress vapors. Available in pads (MAT285), page 15, or rolls (MAT283).

415.916x2x3CHV	2' x 3'	Black and Chevron
415.916x2x3GY	2' x 3'	Grey

WeldSafe

Thick rubber surface. Embossed leather texture. Melt point of over 500°F. Unparalleled performance and comfort. Available in multiple sizes.

Pieces #	Size
447.916x2x3BK	2' x 3'
447.916x2x75BK	2' x 75'
447.916x3x5BK	3' x 5'
447.916x3x75BK	3' x 75'

Grade A

Designed to withstand fluids and oils including vegetable oils, animal fats, citrus, and fish oil. Textured surface increases traction when greasy and wet. Passes NSF test ASTM G21-96 (2002) for resistance to microorganisms. Is permanently anti-microbial and compound additive has GRAS status.

Pieces #	Size
482.12x30x36TC	2,5' x 3'
482.12x30x60TC	2,5' x 5'

Industrial WorkSafe

Grease Resistant, Bright, built-in safety borders. Long-term comfort and value. Available in multiple sizes.

Pieces #	Size	Color
476.58X2X3GRBK	2' x 3'	Black
476.58X2X3GRBOR	2' x 3'	Black and orange
476.58X2X3GRBYL	2' x 3'	Black and Yellow

Diamond Plate (495) and Smart Diamond Plate (497)

Chemical and abrasion resistant. Flex-Link sponge base. Used in dry industrial and commercial applications. Available in multiple sizes.

Pieces #	Size	Color
495.1516x2x3BK	2' x 3'	Black
495.1516x2x3BYL	2' x 3'	Black and Yellow
497.1x2x3BK	2' x 3'	Black
497.1x2x3BYL	2' x 3'	Black and Yellow

Corrugated Switchboard Matting

Conforms to ANSI/ASTM D-178-01 Type II, Class 2. Dielectric Strength: 30,000 volts. Recommended Max Usage per ASTM D178-01: up to 17,000 volts. Easy to clean Corrugated surface design

Pieces #	Size	Color
702.14x2x75BK	2' x 75'	Black
702.14x3x75BK	3' x 75'	Black
702.14x3x75BYL	3' x 75'	Black and Yellow
702.14x4x75BK	4' x 75'	Black

ErgoDeck

Standing relief in wet or dry applications. Customize in 3" increments to fit any area or configuration. Positive Interlocking System prevents separation. Easily replace single pieces or sections as needed to reduce costs. 100% Silicone Free PVC tiles provide maximum durability. Corner and ramp available in Yellow.

Pieces #	Size	Color
552.78x18x18BK-CS10	1,5' x 1,5'	Black
553.78x18x18BK-CS10	1,5' x 1,5'	Black
560.78x6x15x15BK-CS4	0,5' x 1,3'	Black

TRAINING & FIT TESTING CERTIFICATION

Wajax health and safety specialists can offer essential services in your work place such as:

Basic Training on Respiratory Protection: As per the new CSA Z94.4-11 standard, we can provide all workers required to use a respirator for their work with basic training on how to adequately use and care for their respirators (approximate duration of 45-60 minutes).

Training Health & Safety Leaders in Respiratory Protection: Training intended to help the people in charge of health and safety within your organization to put together a respiratory protection program which will comply with the CSA Z94.4-11 standard (approximate duration of 8 hrs).

Fit Testing Services: Wajax offers fit testing services (qualitative and/or quantitative) for your workers required to use respirators, in accordance with Quebec laws (mandatory as per the CSAZ94.4-11 standard currently in effect). Approximate duration of 5 to 10 minutes/worker.

Training for Fit Testing Certification: We offer training to those who wish to be certified and recognized as having the competencies to perform fit testing on workers who wear respirators. This training covers the important steps pertaining to the application of the qualitative and quantitative fit testing in accordance with the CSA Z94.4-11 standard (approximate duration of 4 hrs).

Basic Fall Arrest Training: We offer a basic training to workers who need to work high above ground and use CSA approved fall arrest equipment (approximate duration of 2 hrs).

Inspection of Fall Arrest Equipment: Our specialists can inspect your harnesses and lanyards to ensure compliance with the CSA regulation pertaining to the maintenance and inspection of your fall arrest equipment.

Fall Arrest Equipment Inspection Training: Wajax offers training to provides your personnel with the required competency level to inspect a safety harness, a lanyard, as well as a self-retractable life line type 1 used in their work environment and in accordance with the CSA standard Z259.10-12, which requires this type of equipment to be inspected at a minimum frequency of once per year (approximate duration of 4 hrs).

Work Environment Analysis: Wajax specialists can analyze your work stations, evaluate the safety risks and determine the measures to be taken to protect your workers by making the work environment safe. Whether it be to evaluate hand protection, eye protection or clothing, they can steer you in the right direction and offer good advice.

Contact a Wajax branch near you for more information on the services offered by our health and safety specialists.
